## FOR IMMEDIATE RELEASE

### **Ares Armor Announces the Online Availability of AR15 Stainless Barrels.**

*Top of the line Barrels featuring choice of light or heavy profile. All NFA Rules Apply.*

**(Oceanside, CA) – Build an AR15 Firearm** – Ares Armor introduces five (5) new barrels available for immediate purchase online this week. Two (2) are 18” Stainless Barrels 5.56 with your choice of a light or heavy profile. Both ar-15 barrels are 416r stainless – a material argued to produce the most accurate barrels on the market today. As Ares Armor continues to build awareness around homemade firearms in support of exercising 2<sup>nd</sup> amendment rights with 80% lower receiver builds; the everyday consumer and tactical enthusiasts can expect a growth in the spectrum of weapon components available at Ares Armor (dot) com.

#### **18” Stainless AR15 5.56 Nato HBar Barrel:**

The perfect barrel for those wanting to finish an AR15 build with the expectation of excellent accuracy and extra distance that many barrels claim and only a few deliver. This ar-15 Barrel is threaded to work with standard muzzle devices and supported calibers out there. Highlights are:

- 416r stainless
- rifle length gas system
- threaded ( $\frac{1}{2}$  x 28)

Available for immediate purchase and review at:
