### AR10 Signature Billet Raw

<http://aresarmor.com/store/Item/aa-billet-ar10-III-RAW>

Made from 7075 T6 Billet aluminum our Signature Billet DPMS/LR308 pattern AR10 80% Lower is highest grade 80 percent AR10 Lower available. With two (2) years of development and refinement we have added features not available in any lower out there. These features include a trigger over travel set screw giving you the ability to fine tune your trigger whether you are building a long range precision gun, or a shorter length hard hitting Carbine. This is the AR10 80% Lower for those that appreciate the fine attention to detail and highest quality manufacturing. With its integrated trigger guard and flared magwell this 80% Lower gives you everything you could possibly want in a top tier AR10.

---

### AR10 Signature Billet Anodized

<http://aresarmor.com/store/Item/aa-billet-ar10-III-ANODIZED>

Anodized black to either match the rest of your build or for a high quality finish basecoat for whatever other coating you have planned for your build.
